Health Science Student Requirements Form (OPTIONAL)

These requirements are for students starting their first semester of the following academic programs: Medicine, Nursing, Dentistry, Pharmacy, Physician Assistant, Nurse Midwife Masters, Clinical Nutrition, Perfusion, Physical Therapy, Radiation Science, EMT/Paramedic, Athletic Training (submit to your coordinator as directed), Speech Pathology (check with your coordinator for timing).

This form can be used simply as a worksheet as it is a good checklist of all the things you need to complete. An official immunization record from your health department and/or medical records are also acceptable ways to send in this information. If you attended the UI as an undergraduate, check your MyUI to make sure we have all needed information. Test/Lab results require submission of the lab/test report indicating results. If you submit this form as your only record, it must be signed by your health care provider.

Last Name: ___________________________  First Name: _______________________
Birthdate: ___________________________  UID #: ___________________________

MMR (Measles, Mumps, Rubella): Any combination of 2 individual/combined vaccines for each disease, at least 28 days between vaccine doses with the 1st vaccine given no sooner than 1 year after date of birth; OR lab result report(s) indicating positive antibody titers for MMR (all three diseases)

ANY COMBINATION OF THE FOLLOWING:

MMR or MMRV #1 Date: _______________  MMR or MMRV #2 Date: _______________

Measles #1 Date: _______________  Mumps #1 Date: _______________  Rubella #1 Date: _______________
Measles #2 Date: _______________  Mumps #2 Date: _______________  Rubella #2 Date: _______________

OR

☐ SUBMIT Positive Measles titer lab report  ☐ SUBMIT Positive Mumps titer lab report  ☐ SUBMIT Positive Rubella titer lab report

Varicella (Chicken Pox): 2 Varicella vaccines, at least 28 days apart, or lab result report indicating positive antibody titer. If you had varicella disease as a child, you must still have a titer to document immunity if not (2) vaccines.

Varicella or MMRV #1 Date: _______________  Varicella or MMRV #2 Date: _______________

OR

☐ SUBMIT Positive Varicella titer lab report

1/22, 6/22, 5/23, 6/23, 8/23, 6/24
**Hepatitis B:** Hepatitis B Vaccines (a series with 2 or 3 vaccines) AND positive Hepatitis B Surface Antibody Titer lab result report. If unable to provide documentation/dates of vaccines, a positive Hepatitis B Surface Antibody Titer alone will meet this requirement. If you are a non-hepatitis B responder, booster vaccine(s) and a repeat titer must follow Student Health timelines/guidelines. If you are not immune to Hepatitis B after 2 rounds of the Hepatitis B Vaccine Series with titers, please provide documentation from your medical provider. You are considered to have met this requirement once you have positive titer status or have completed 2 rounds of Hepatitis B vaccinations and still have a negative titer.

*Note Engerix B vaccine is a 3-dose series and Heplisav B vaccines is a 2-dose series.*

Hepatitis B #1 Date: ____________
Hepatitis B #2 Date: ____________
Hepatitis B #3 Date: ____________ AND □ A positive Hepatitis B Surface Antibody Titer lab report

*If needed* Hepatitis B #4 Date: ____________
Hepatitis B #5 Date: ____________
Hepatitis B #6 Date: ____________ AND □ A positive Hepatitis B Surface Antibody Titer lab report

**OR**

□ SUBMIT Positive Hepatitis B Surface Antibody Titer lab report

**OR**

□ Submit medical provider documentation of lack of Hepatitis B immunity (negative or nonreactive titers) after (2) complete Hepatitis B vaccine series

**Tuberculosis (TB) Screening:** A two-step TB Skin Test (TST) or a negative TB blood test - Interferon Gamma Release Assay (IGRA) – QuantiFERON Gold or T-Spot lab result report performed in the United State within the calendar year of your program start. If you have received a Bacille Calmette-Guerin (BCG) Vaccine, given in some foreign countries as a child, you must get a blood test, not a TST. Having documentation of 2 TSTs within the last calendar year will meet this screening requirement. Documentation of 1 negative TST in the last calendar year requires you to get an additional TST. Documentation of 2 negative TSTs more than a calendar year ago requires you to get an additional TST. Submit all records of past TSTs.

Tdap Date: ____________ Td Date: ____________

Tdap Date: ____________ Td Date: ____________

Tdap Date: ____________ Td Date: ____________

Tdap Date: ____________ Td Date: ____________
Two-step TB Skin Test (TST) is done as follows: The first test is placed, and results are read within 48-72 hours after placement. There must be at least 7 days between the placement date of the first TST and the placement date of the second TST. The second test is placed, and results are read within 48-72 hours after placement. Placement date, read date, result and induration are all required for acceptable documentation.

TST #1 Placement Date: _____________ Read Date: _____________ Result: _____________ Induration: ____ mm TST #2 Placement Date: _____________ Read Date: _____________ Result: _____________ Induration: ____ mm OR

☐ Submit an IGRA – QuantiFERON Gold – T-Spot blood test lab report performed in the United States within the calendar year of your program start

**History of Positive TB Screening Test:** If you have a positive TST or TB Blood Test in the past, please provide documentation of the following:

☐ Submit positive test result
☐ Submit chest x-ray report
☐ Print out and complete the following TB Assessment Form:
   [https://studenthealth.uiowa.edu/assets/Tuberculosis-Assessment-Form-v3.pdf](https://studenthealth.uiowa.edu/assets/Tuberculosis-Assessment-Form-v3.pdf)

Additionally, if you have been treated for LTBI (Latent TB Infection), please provide documentation of the following:

☐ Medication information
☐ Treatment dates

Have appropriate medical staff review the contents of this form, test/lab results, vaccine dates and Health Screening information before they sign at the bottom of this page. This form is also a link on our website in the Health Science student section.

I have reviewed the contents of this form, test/lab results and vaccine dates.

Printed Name: ____________________________ Signature: ____________________________

Date: ____________ Clinic Stamp: ____________________________

Email this form and copies of lab, titer & vaccine records to: immunizations@healthcare.uiowa.edu

**Health Screening:** Complete and submit the following Health Screening information at the start of your Health Science program. Can be signed by RN, ARNP, PA, DO or MD. Note that this specific form IS NOT required by the College of Medicine, College of Dentistry, Masters of Clinical Nutrition, EMT, or Speech Pathology programs. All other health science programs request that you complete it. Check with your program coordinator if needed.
*This form is NOT required for medical students, EMT, Masters of Clinical Nutrition, Dentistry, and Speech Pathology students. Check with your program if unsure on the completion of this form.*

**HEALTH SCREENING FORM:**

Age: _________

Place Of Birth: ____________________________________________

Are you currently being treated by a health care professional for any condition(s)? List: ____________________________________________
____________________________________________________________________________________________________
________________________________________________________________________________________________________________________________________

Are you taking any medications regularly or as needed (other than aspirin/Tylenol)? List: ____________________________________________
____________________________________________________________________________________________________
________________________________________________________________________________________________________________________________________

Medical History

☐ NO ☐ YES Contagious skin rashes: __________________________________________________________

☐ NO ☐ YES Other than at birth, have you ever had hepatitis or other liver disease? List: ________________________________
____________________________________________________________________________________________________

☐ NO ☐ YES Do you have any other medical conditions not mentioned above? ________________________________
____________________________________________________________________________________________________

_______________________________________________                                                                                                                                ___________________________
Student Signature                                                                                                                                        Date

I have screened this patient and found them to be free of communicable illness.
